

SUPPLIER DECLARATION OF CONFORMITY (SDoC)

In accordance with ISO/IEC 17050-1:2004

SDoC Identification Number:	15102
------------------------------------	-------

Issuer details			
Name (NZ manufacturer / importer):	EVOLVE NZ LIMITED	Contact Address:	174B Glasgow Street, Wanganui 4500, New Zealand
Telephone:	0800 357 6311	Website:	www.evolve-lighting.co.nz
NZ Company No.:	2278706	Email Address:	admin@evolve-lighting.co.nz

Medium Risk Article – Details (Product name, type, rating, brand, model, batch / serial numbers, as applicable)		
Product Code	Description	Type
STRIX-500-8345-B-AF	Strix Foundation Series LED Floodlight, 500W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC100-277V 50-60Hz	LED Luminaire (Floodlight)
STRIX-400-8345-B-AF	Strix Foundation Series LED Floodlight, 400W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC100-277V 50-60Hz	LED Luminaire (Floodlight)
STRIX-300-8345-B-AF	Strix Foundation Series LED Floodlight, 300W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC100-277V 50-60Hz	LED Luminaire (Floodlight)
STRIX-200-8345-B-AF	Strix Foundation Series LED Floodlight, 200 / 160 / 120W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC100-277V 50-60Hz	LED Luminaire (Floodlight)
STRIX-150-8345-B-AF	Strix Foundation Series LED Floodlight, 150W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC100-277V 50-60Hz	LED Luminaire (Floodlight)
STRIX-100-8345-B-AF	Strix Foundation Series LED Floodlight, 100 / 80 / 60W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC100-277V 50-60Hz	LED Luminaire (Floodlight)
STRIX-50-8345-B-AF	Strix Foundation Series LED Floodlight, 50 / 30 / 20W (wattage selectable), 3000K / 4000K / 5000K CCT selectable, IP66, IK08, Class 1, AC220-240V 50-60Hz	LED Luminaire (Floodlight)
<i>Notes: Multi-wattage (3-step) and CCT (3000K/4000K/5000K) selection is achieved via on-driver wattage/DIP and CCT switches (see product spec sheet). All models share the same construction, differing only in power and size. STRIX-50 is rated AC220-240V; all other models AC100-277V.</i>		

The Medium Risk Article listed above, fully complies:	
With cited standard(s), as listed:	
Standard 1	
Standard number and issue year:	AS/NZS 60598.1:2017
Edition / Amendment status:	Incorporating Amendment 1:2017 and Amendment 2:2020
Standard title:	Luminaires - Part 1: General requirements and tests
AS/NZS modified:	No
Standard 2	
Standard number and issue year:	AS/NZS 60598.2.5:2018

Edition / Amendment status:	—
Standard title:	Luminaire - Part 2.5: Particular requirements - Floodlights
AS/NZS modified:	No
OR Complies with the Conformity Cooperation Agreement (CCA):	No
OR is registered on the EESS database & the declarer is registered as the responsible / affiliated supplier:	No EESS Equipment # —

Names and addresses of any Evaluating / Testing / Certification organisation or body used	
Name(s):	Guangdong GTG Testing Technology Co., Ltd. (test laboratory); Global-Mark Pty Ltd (certification body)
Address(es):	GTG: 1-2/F., Building A, and 1/F., Building B, No.11, & Room 102, Unit 1, and Room 101 Unit 2, Building 1, No.9, Zongbu 2nd Road, Songshan Lake High-Tech Industrial Development Zone, Dongguan, Guangdong, China. Global-Mark: 407, 32 Delhi Road, North Ryde NSW 2113, Australia

Reference to relevant test reports / certification and the issue date that show how compliance is achieved		
Supporting document(s) used, to show how compliance with the declared standard(s) is achieved or CCA certification:	Report / Certification or Document reference No(s):	Issue date(s):
Type test report covering AS/NZS 60598.1:2017 (Amd 1 & 2) and AS/NZS 60598.2.5:2018 requirements	S01A26060071L00101	16/07/2026
Global-Mark Certificate of Suitability (RCM / Recognised External Certification Scheme, System 1)	GMA-529196 Rev 00	17/07/2026 (expires 17/07/2031)
Reference to any management quality system involved:	Product certified under the Global-Mark Electrical Product Safety Certification Scheme (System 1 approval), which requires ongoing conformity of production.	
Additional information:	Strix Foundation Series LED floodlight for outdoor use; IP66, IK08, Class 1, suitable for mounting on normally flammable surfaces. Product carries the Regulatory Compliance Mark (RCM) under Global-Mark certificate GMA-529196.	

Declaration (signed for and on behalf of):	
Name and position as authorised by the issuer: Michael Strong Director, Evolve New Zealand Limited Issuer Identification (as affixed to the article):  (NZ Company No. 2278706 also affixed)	Signature:  Date: 21 July 2026 Signed for and on behalf of: Evolve NZ Limited

Notes for completion:

1. Every declaration of conformity should be uniquely identified.
2. The responsible issuer must be unequivocally specified and either be the NZ manufacturer or the importer (NZ).
3. The "Article" must be adequately described so that the declaration of conformity may uniquely be related to the declared article in question. For mass-produced products it is not necessary to give individual serial numbers. Where variants of an article are to be covered, these must be fully detailed.
4. The cited standard is the applicable specific safety standard exactly as it is cited in [Schedule 4 of the Electricity \(Safety\) Regulations 2010](#) or AS/NZS 3820, at the date that the declaration is signed. Where compliance with AS/NZS 3820 is claimed, a supporting document will be required that shows how each clause of the AS/NZS 3820 standard is complied with.
5. This is for products imported and offered for sale under the explicit control of the China "Conformity Cooperation Agreement" – such product will be marked in accordance with that agreement and NZ suppliers of such product should obtain documentary evidence to support any claim that a product is covered by that agreement. Warning: a product offered for sale that is marked in accordance with the CCA, that is not actually covered by the CCA, is illegal and subject to a fixed Infringement Fee fine.
6. The Electrical Equipment Safety Scheme (EESS) registration can be checked at <https://equipment.era.gov.au/Registration/EquipmentSearch.aspx>. The product declared must exactly match the details listed on that database and the NZ declarer must be the named Responsible or Affiliated supplier registered for the specific product.
7. Text should appear here only if any limitation on the validity of the declaration of conformity and/or any additional information are given.
8. Full name and function of the signing person(s) authorised by the issuer's management to sign on its behalf should be given. The number of signatures included will be the minimum determined by the legal form of the issuer's organisation.

Continuing validity of the declaration of conformity:

The issuer of the declaration of conformity shall have adequate procedures in place to ensure the continued conformity of the declared medium risk article, as delivered or accepted, with the stated requirements of the declaration of conformity.

The issuer should have procedures in place to continually evaluate the validity of the declaration in the event of:

- a) Changes significantly affecting the article design or specification by the manufacturer; and/or
 - b) Being aware of relevant information indicating that the article may no longer conform to the specified requirements; and/or
 - c) Change of product manufacturer or structure of management of the product manufacturer; and/or
 - d) Change of supply of any critical safety or protective components; and/or
 - e) Changes to the safety standards cited in Regulations, for product imported / NZ manufactured, after the new citation takes effect.
- (Note: This does not apply to equipment imported under the CCA or currently registered on EESS by the NZ supplier, where the continued validity is governed by other rules.)

Additional information regarding the declaration:

Although not required by ISO/IEC 17050, "Issuer Identification" affixed to the article should identify the issuer of the SDoC and may be in the form of a NZ GST No., NZ Company No., or unique NZ brand name or trademark. Failure to mark a product with such unique identification may result in the issuer being held responsible for compliance of an article that may not have been supplied by the issuer, unless the issuer can prove otherwise.

A copy of the SDoC and test report(s) and/or other supporting compliance documentation must be available within 10 working days of being asked to do so by Energy Safety. A copy of the SDoC only must be provided within 10 working days of request by a purchaser or potential purchaser of the article declared.

A person who sells or offers for sale a declared medium risk article commits an offence if, at the time of sale or offer to sell, a valid declaration of conformity for the article has not been made, or the person cannot provide a copy of the declaration of conformity along with the required supporting documentation within the timeframe allowed. Penalties associated with a grade "A" offence are fines not exceeding \$10,000 for an individual or \$50,000 for a body corporate, or a fixed infringement fee of \$1,000 for an individual or \$3,000 for a body corporate.

See [the current regulatory definitions of medium risk articles on the WorkSafe / Energy Safety website](#).

**This completed form remains with the issuer as part of the documentation required as evidence of compliance.
DO NOT submit a copy of this form to Energy Safety unless specifically requested to do so.**
