Impact sockets

They're great, convenient handy, having the clip on there helps put it on where your strap is for your Klein mod box bag

★★★★★ **Very handy little set up!**

Very handy and well made. I'm an industrial mechanic by trade. Keep clipped to my tool bag or on my belt loop when I have to up ladders to work. The sockets stay in the holder firmly so no worries on them falling out. I have even dropped them and they stayed in place. Klein is great quality! I would recommend.

Klein quality and durability in a convenient carry package. Great value of most used sockets. I have used and abused Klein products for over 30 years and they're still in great shape.

## Why use a Grab n Go Impact Socket Set

- > **Impact Rated Construction** – Built from cold forged, heat-treated steel to withstand repeated torque from impact tools
- > **Quick Access & Portability** – Set includes carabiner and compact sleeve so you can attach sockets to your belt, tool bag or backpack for easy access on job sites
- > **Colour coded rings & bold markings** – Makes it faster to grab the right size without hunting through a toolbox- saves time and frustration
- > **Includes a 3-Inch impact adapter** – Allows you to use with smaller impact devices for compact jobs where a full wrench might be overkill

- 1 Heat-Treated CrMo Steel
- 2 Color Coded
- 3 Stamped & Paint Infill Markings.

Push socket up from sleeve for quick and easy removal
