Review 1

Great tool

★★★★★ ✓ Would Recommend

Surprisingly light weight and easy to operate. I will definitely be picking up a couple more. Excellent scraper and utility knife.

Review 2

Another great Klein tool.

★★★★★ ✓ Would Recommend

I've been spoiled by the ease of 1-handed opening of bladed tools, having carried a gravity-assist pocket knife for years. So finding a utility knife offering that same functionality was very nice. The blade opens smoothly with a press of the button and a flick of the wrist. There are 2 positions the blade can lock into once opened, and after just a few tries I found it was easy to time the button release so that the blade would lock into either the angled position or fully opened as I needed. Deploying the scraper blade and then returning it to it's closed position using the thumb wheel is equally as smooth and easy. I've only had it for a week now and haven't abused it to any degree yet, so I can't draw any conclusions about its durability. But it seems very well made, and if it's made anything like the other Klein tools I own I anticipate it will give me many years of reliable service.

Review 3

SHARP

★★★★★ ✓ Would Recommend

Absolutely recommend, went back and bought another one for work. Used it to cut horse mats on the farm and sliced through like butter. Great knife

Review 1

Klein tools are high quality.

★★★★★

Very sharp blade with a protective cover. Convenience of folding to make it easy to carry

Review 2

Sturdy.

★★★★☆ ✓ Would Recommend

Fit comfortably in my hand

Review 3

Durability

★★★★★ ✓ Would Recommend

I love this knife. I had dropped it in a rock quarry and it was ran over by several different peices of equipment. It had some groves smashed into but it still flipped open as if it was brand new. It holds the blades as it if just open the package. I love it...

Product Overview

Why use Klein Folding Utility Knives?

- Designed for versatility, seamlessly switching between a utility knife and scraper (44306 model).
- Two locking positions, angled for specialized tasks or standard for everyday cutting.
- High-quality carbon steel blades, and compatibility with universal blades.
- Quick-release button for fast, tool-free blade changes.
