

DISTINGO™

COLOUR THAT MAKES SENSE.

Nexans **DISTINGO™** — Know Your Core at a Glance.

Nexans

MOBIWAY™ BOOST

RETURNABLE & REUSABLE:
A win for efficiency and sustainability.

WITH NEXANS DISTINGO™ — a coloured stripe to distinguish the conductor size and identify the active core on the cable.

SAVES TIME & COSTS while reducing waste on every worksite.

WITH METRE MARKING to minimise scrap cable & maximise usage value

ROBUST SPOOL SYSTEM designed for ultimate safety & efficiency.

RETURN YOUR EMPTY BOOST SPOOLS TO THE POINT OF PURCHASE & EARN!

The wheel reinvented + expanded.

The MOBIWAY BOOST spool system not only features an integrated carry handle that makes transportation, rewinding, and unspooling a breeze, but it also now offers six additional cable options.

The new lineup includes Earth cable in 6mm, Climate cable in 1.5mm, Switch cables in 1mm and 1.5mm, and Current cables in 4mm and 6mm—designed to meet the most demanding electrical installation needs

Work smarter, faster, and safer. Variety matters.

MOBIWAY BOOST available in 6 more cables.

Makes sense, whichever way you stack it.

Vertical Stacking

Horizontal Stacking

The MOBIWAY BOOST can be stacked both vertically and horizontally, reducing labor costs and improving safety and efficiency. This design allows for quick setup, secure transport, and stable storage, thanks to its rubber feet that provide added stability. The system also enables the simultaneous pulling of multiple cables.

DISTINGO™

COLOUR THAT MAKES SENSE.

Smarter. Safer. Faster.

A STEP AHEAD FOR SMARTER, FASTER INSTALLATION WITH NEXANS DISTINGO™

Nexans DISTINGO™ is the next evolution in flat cable innovation. A distinct coloured stripe makes it easy to identify conductor size and the placement of the active core—reducing errors, improving on-site safety, and saving valuable time.

It's not just a colour change—it's your new visual "barcode."

Paired with our award-winning MOBIWAY BOOST spool system, Nexans DISTINGO™ is a simple yet powerful solution to real job-site challenges. The clearly visible stripe enables electricians to distinguish the conductor size and identify the active core on the cable at a glance—reducing mistakes, enhancing safety, and streamlining panel connections. This powerful combination of smart design and cable innovation sets a new benchmark for efficiency in modern electrical installations.

Nexans DISTINGO™ — Know Your Core at a Glance.

CURRENT

- 1 mm Length 200m
- 1.5 mm Length 150m
- 2.5 mm Length 110m
- 4 mm Length 80m
- 6 mm Length 65m

SWITCH

- 1 mm Length 200m
- 1.5 mm Length 150m
